

Lonseal's LONRIDGE features resilient, slip-resistant exterior sheet vinyl with a slightly embossed surface that withstands high volumes of pedestrian traffic and weather-wear. LONRIDGE has been utilized around pools, on hotel and condo decks, and on rooftops and stairways. Though designed for exterior spaces, the Londeck line is equally appropriate for interiors. Boasting a unique cross-hatch embossing design and the same color scheme as its sister product Lonsand, LONRIDGE has all the slip resistance an exterior surface needs while also providing a neutral color palette with a dusting of speckles that help mask dirt.
