

3M™ Floor Matting for Educational Facilities

3M™ Nomad™ Entrance Matting Systems

A 3M entrance matting system helps stop dirt and moisture at the door. This will also help keep floors clean throughout your entire facility. It's called a *system* because it's more than just a single mat. It consists of different types of mats, each doing its specific job to help keep your building clean.

3M entrance matting systems:

- Continually provide a cleaner floor at the entrance and throughout the facility
- Help protect the floor from damage due to tracked-in soil and other debris
- Reduce the time and effort needed to clean and maintain floors
- Reduce dirt and water on hard floors, which can help reduce slips and falls

You can also provide customized logos and messages on 3M matting while continuing to get great performance.

3M™ Safety-Walk™ Work and Wet Area Mats

Work area mats

3M work area mats help provide a safer, drier, more comfortable place to walk or stand. 3M work area mats can help make the workplace more comfortable so people can:

- Focus on the work they are doing
- Increase work efficiency
- Improve work productivity
- Help avoid accidents and injuries

Anti-fatigue mats are proven to reduce worker fatigue and discomfort by as much as 50%.*

Wet area mats

3M wet area matting is designed to help provide slip-resistant footing in barefoot traffic areas. All-vinyl construction for durability and ease of care.

*Influence of Flooring on Standing Fatigue. University of Pittsburgh, University of Michigan joint study (1995).
